Dear Authors,

We are pleased to inform you that your manuscript has passed peer-review and is provisionally accepted for publication in

Manuscript ID: CLE-26060016

Title: Research on nonlinear rheology perspective of loess mudflows based on large amplitude oscillatory shear (LAOS)

Authors: [daozheng wang](#), [xingang wang](#), [jiading wang](#), [pengfei jia](#), [Dahai sun](#), [rui liu](#)

E-Mails: dzwang@nwu.edu.cn, xgwang@nwu.edu.cn, wangjd@nwu.edu.cn, pengfeijia@nwu.edu.cn, dahai.sun@anton-

Any further comments from the referees can be found below and/or attached to this message.

We will now finalize your submission and send it to Editorial Office Final Check soon. For any questions or issues, please

Kind regards,

Continent and Life Evolution Journal Team
